

QUALITY POLICY STATEMENT.

2797-CPR-712145

Management and staff at MLB Steel Ltd are dedicated to the principle of never ending improvements in product quality, reliability & customer service excellence.

Our principal aim is to always supply to our customers high quality design and supply of reliable lattice beams, joists, truss solutions, associated fabricated assemblies, and hot rolled fabrication solutions / full fabrication and erection site services. with unrivalled levels of customer service that conform exactly to stated or agreed specifications and order requirements, to convey best value in terms of quality and price.

The establishment of an FPC is therefore the foundation to establish a company culture centred upon continuous quality improvement.

The FPC is based on the requirements of BS EN ISO 1090 & BS EN 3834 and the company is fully committed to fulfilling these requirements.

The system has being developed to enable full integration of in-house and client specific & product legislative requirements i.e. The CE marking of structural steel fabrications up to Execution Class 3.

The aims of the FPC are to prevent quality defects or potential quality defects at the earliest stage possible. This in turn improves the overall efficiency of the organisation and assists in the compliance with the annually formulated quality objectives.

The FPC will provide a structure framework to ensure that all products and services will meet customer specification and provide satisfaction with regard to product quality, reliability, delivery, legal compliance and customer service.

Top management will formulate quality objectives annually, during management reviews and will ensure the routine monitoring, measurement and achievement of set objectives.

Signed:

Chad Ward
